## Education

### **Ravensbourne College of Design and Communication**

*BA(Hons) Degree: Design for Moving Image - Ongoing*

- Corporate Identity and Branding
- Typography (screen and print)
- Ads and Promos
- Production (also pre and post)
- Graphic/Motion design
- Animation

My course involves a range of creative, technical and professional skills that require effective and relevant use of research, analysis and problem solving. It is also underpinned by the creative idea and encourages the processes and methodology behind refining a simple yet powerful solution. As part of my course I have learnt the following software packages:

- Illustrator (good)
- Photoshop (good)
- After Effects (good)
- In-Design (good)
- Final Cut Pro (basic)
- Quantel (basic)
- Viz RT (basic)

*Foundation Diploma in Art and Design - Merit*

## Work/Experience

### **Aug.08 - Oct.08: Think Tank Media, Greenwich, London.**

- Re-designing of stationary and working documents
- Assistant to Directors
- Organising job bags, samples, stock and mail
- Content for company website
- Research of client quotes for print and promotional items
- Gaining knowledge of production of various packaging and printing methods

### **Nov.07 - Jan.08: Game Stores Ltd, Woolwich, London**

- Customer Service/Assistance
- Dealing with complaints
- Organising and replenishing Stock
- Working under busy circumstances within a team

## Interests

As an enthusiastic and curious designer, I am inspired and interested by all aspects of life, politics, activities, design and culture. I have recently been travelling around Europe, an experience that was fulfilling and inspiring, and something I wish to pursue whenever the opportunity arises. I enjoy all areas of music and have recently taken up drumming. As well as designing I enjoy painting, as this keeps me creative when not busy with work.

## Personal Statement

I am a coherent, reliable and enthusiastic person who is driven and influenced by many different aspects of life and design. I am adaptable and willing to learn, and am consistently proficient in every project carried out. I have a basic understanding of different design and post production software packages and I am able use these skills when necessary. I would like to pursue a career in motion design and would like to learn as much about the industry as possible.
